Forecast For Tayside, Central & Fife
Issued by Met Office Aberdeen
at 1600 on Thursday 27 May 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Rather cloudy on Friday, a little rain in the southwest.

This Evening and Tonight:
Some evening sunshine then clear spells tonight. Cloud thickening across Stirlingshire and the Central Belt towards morning, perhaps the odd spot of rain. Dry elsewhere. Minimum temperature 6 deg C (43 deg F).

Friday:
A cloudier day, though still some sunshine across inland Angus, coastal haar possible. Thicker cloud will bring a little rain to the south and west, especially Stirlingshire. Maximum temperature 16 deg C (61 deg F).

Outlook for Saturday to Monday:
Dull damp start on Saturday, but brightening up for most, the odd shower. Quite warm. Dry, bright and warm on Sunday and Monday.
